WHERE TO FIND PREVIOUS ITEMS COVERED IN PREVIOUS NEWSLETTERS

The 2022 news items are now indexed at the bottom of the 17 December newsletter and can be downloaded from www.pascuk.co.uk

COMMENTARY

With ever more announcements that remaining Covid Restrictions will be lifted, including the need to self-isolate in England we are slowly moving towards a being able to remove the word Covid from the top of PASC UK weekly newsletter, possibly before a centenary issue. What a terrible journey it has been for so many.

These announcements do move Covid into the realm of flu, particularly for our sector when it comes to reasons to cancel. As the guest has no legal requirement to self-isolate, then that is not a reason to demand a full refund any more than if they break a leg or get flu. That is what travel insurance is for. Known risk. We are in the process of updating the Cancellations Paper and this will be included.

As to whether we all feel comfortable having guests in who might have Covid, that's another question entirely. Our take on that is that this is no time to be reducing cleaning vigilance. Many are continuing with a thorough clean, followed by a viriciding of key contact points, and that this is regarded positively by guests.

This week's postbag though has been full of woe, increasing costs for energy, insurance, wages and general supplies all coming at the same time. Below you can find a link to the Webinar on saving money if you are on commercial electrical supplies that we held this week, plus some notes if you are on a residential energy supply. The impact of all these rises means that the hospitality blogs are awash with owners asking if they can raise prices for existing bookings. We have covered this below too.

We continue to lobby the Government at every opportunity. This week your chair presented to the Great SW APPG (All Party Parliamentary Group). This is a group of all the MP's in SW England, and they took on board all our key lobbying issues and will continue to pressure Government on our behalf.

Moving forwards, we still need input, feedback and information about the following:

- The three Consultations in Wales that affect self-catering. (See below)
- If any of you have managed to secure any kind of energy related grants for your business (not home).

Any information on these gratefully received, send to chair@pascuk.co.uk

As always, we wish you all safe and successful trading over the coming months.

Best regards Alistair

LIFTING OF REMAINING COVID RESTRICTIONS IN ENGLAND

The Prime Minister announced in Parliament that the Government is planning to remove the remaining Covid-related restrictions centred on self-isolation within two weeks rather than waiting for the 24th of March. This would mean that people would only be advised to not go to work if they tested positive for Covid rather than it being a legal requirement to self-isolate.

We will watch closely to see how quickly Scotland and Wales will follow.

PASC UK IS RECRUITING

We are now in full interview mode and looking to make the first appointment as soon as possible. We are focussing on the administration side of the business to begin with, to free up more time for lobbying and support for Members

Full role specification here: <https://www.pascuk.co.uk/vacancies/>

If you know of anyone that might be interested, then please let us know by emailing chair@pascuk.co.uk Thanks.

PASC UK RENEWALS

We have noticed whilst processing applications for the PASC UK Buying Club, that many Membership Subscriptions from 2021 remain unpaid. This could be down to a number of factors, firstly that we have never chased the original invoice as we don't currently really have a system for that, or that the invoice was not received for one reason or another.

Member benefits are only available to paid Members, these include telephone support, priority email support, access to the Buying Club, help with Business Rates and Privacy and Cookie Policies to name a few.

Over the next two weeks we will work through the lapsed subscriptions and ask that you respond quickly to the emails, even if that is just to say that you no longer wish to be a Member, thanks.

IMPACT OF RISING COSTS ON SELF-CATERING PRICES

We have been asked numerous times this week if it is possible to 'surcharge' a guest due to the rising costs covered in the commentary. The simple answer is no. You have entered a contract with the guest to supply a given stay for a stated amount of money. That's a simple contract, and one of the strongest elements of law. They can't offer to pay you less nearer the time, and you can't charge them more.

What can you do?

Firstly, we can all look at the remaining availability that we have this year and increase prices to cover the increased costs. Whilst some will say 'my prices are as high as they can be' everyone should be looking at increasing prices for remaining availability. The more that raise their prices the less that this will be an issue. We still remain astonishingly good value on a per person per night basis.

Secondly, try and make sure that all that can be switched off between bookings is, just running enough heating to comply with your insurance. We do have a dilemma that we are urged to leave windows open between stay and perhaps this should just be the morning of the changeover, to give properties time to warm up again, rather than longer.

Thirdly, we know we nag on about this, but greening your business is a great long-term investment. Mega insulation can mean that heating requirements are minimal. Low energy lighting is still by no means the norm. Boilers need servicing to operate at full efficiency.

Finally, it is only reasonable to ask 'those guests' (we all have them) who turn up the heating and open the windows rather than adjust the thermostat to be more responsible and to turn the heating down. We don't want them to be cold, but they should not waste our money, or limited resources, when all the public know what has happened to energy bills and is happening to the environment.

RECORDING OF REDUCING COMMERCIAL ENERGY & UTILITY BILLS WEBINAR

Webinar 2022 #2

Reducing your energy bills if you are on a commercial tariff

Date: Tuesday 8 February 2022

Time: 1100-1215

Link to view recording: <https://bit.ly/34ysdJs>

This was held conjunction with the PASC UK buying group. Self-caterers are currently seeing their energy bills rising exponentially, some by over 50%. This webinar introduced the service available from the PASC UK Buying Club that can help you reduce, or lock into lower rates. It's possible to also cover Water bills in England and Scotland, (not Wales as Water is not deregulated there)

RECORDING OF THE PASC UK BUYING CLUB WEBINAR

Webinar 2022 #1

Introduction to the PASC UK Buying Group

Date: Tuesday 1 Feb 2022

Time: 1100-1215

Link to view recording: <https://bit.ly/35C9s8b>

The PASC UK Buying Club has been a great success, with over 500 Members enjoying a huge range of benefits. The Buying Club is effectively collective buying power, whereby together we can get better deals than we can on our own. The PASC UK Buying Club does not cost anything to join if you are a paid-up PASC UK Member. Key offers were presented, plus a Q&A session at the end.

The list of discounts is growing all the time, examples here: <https://www.pascuk.co.uk/buying-club/>

SOME TIPS ON ENERGY COSTS FOR THOSE ON RESIDENTIAL METERS

Here's a BBC programme 'You and Yours' on coping with higher energy bills

<https://bbc.in/3gAlH6x>

Money Saving Expert explains to fix or not to fix residential supplies:

<https://bit.ly/3rGE29c>

UPDATE ON MOST PRESSING WELSH GOVERNMENT CONSULTATION.

This week the Working group met, Chaired by the Wales Tourism Alliance. The meeting exclusively focussed on the first consultation to close as the date for us all to submit responses is the 22 February.

2nd Consultation: Planning legislation and policy for second homes and short-term holiday lets:

<https://gov.wales/planning-legislation-and-policy-second-homes-and-short-term-holiday-lets>

This is the least threatening of all the Consultations and the conclusion of the working groups was that we could feed back reasonably positively to the proposed measure. The key point on this consultation is that this will not be retrospectively applied. This was key to all the participants of the working group. Currently the Welsh Government paper says it will not be applied retrospectively, so whilst we will have to keep an eye on this, that major concern seems covered.

It was felt that the changes proposed pretty much repeat powers that Council and Government have already and could be applied already if a Council wanted to. For example, if a house on a residential street with residential planning permission has turned into a 365 night a year rowdy party let, then Councils already have the power to insist on a change of use application and refuse it.

We are really keen to send the same feedback to the Welsh Government on this. The collaborative paper from the group is here: <https://bit.ly/3yiW2GX>

Please let us have any comments, and a final version will be published next week for those that wish to use to respond before the deadline of 22 Feb.

Some notes on this....

The Town and Country Planning (General Permitted Development) Order 1995 (the GPDO) permits certain **specified changes of use between the specified use classes**. Under current planning legislation, planning permission may be required for a change of use of a dwelling house to use as a short-term holiday let. There is no published definition of what constitutes a material change of use from primary or secondary home to a short-term holiday let. Whether a material change of use has occurred, and planning permission is therefore required, is a matter of fact and degree for the relevant planning authority to consider on a case-by-case basis. **Considerations** that may be material include increased occupancy of the property, frequency of changes of occupants, impact on local amenity and on direct neighbours and local housing need.

Welsh Government's proposals to amend the development management system and planning policy in Wales in three ways:

Amend the Town and Country Planning (Use Classes) Order 1987 to create new use classes for 'Primary Homes', 'Secondary Homes' and 'Short-term Holiday Lets'; They would amend Part C of Schedule 1 to the Use Classes Order by:

- Amending the existing use class C3 (Dwelling houses) to apply where a dwelling house is in use as a sole or main residence for a prescribed period (i.e. Primary Homes);
- Introducing use class C5 (Secondary Homes);
- Introducing use class C6 (Short-term Holiday Lets).

Make related amendments to the Town and Country Planning (General Permitted Development) Order 1995 to allow permitted changes between the new use classes for Primary Homes, Secondary Homes and Short-term Holiday Lets. These permitted development rights can be disapplied within a specific area by an Article 4 Direction made by a local planning authority.

Make related amendments to Planning Policy Wales (PPW) to make it explicit that, where relevant, the prevalence of second homes and short-term holiday lets in a local area must be taken into account when considering the housing requirements and policy approaches in Local Development Plans (LDP). Plus, it makes clear where the local planning authority imposes an Article 4 Direction, a condition could be placed on all new dwellings restricting their use to primary residential where such conditions would meet the relevant tests.

WELSH GOVERNMENT MARCHES ON WITH TOURISM TAXES

PASC UK is opposed to Tourism Taxes in Wales.

Government announcement as follows:

Next step in development of tourism tax

The Welsh Government has confirmed a consultation on proposals for a local visitor levy will launch in autumn 2022.

Rebecca Evans, Minister for Finance and Local Government, said a levy would enable destinations in Wales to be enjoyed for generations to come.

Tourism provides a substantial economic contribution to Wales with tourism-related expenditure reaching more than £5bn annually in 2019. A tourism tax would raise revenue for local authorities enabling them to manage services and infrastructure which makes tourism a success.

The Welsh Government's Programme for Government, and the Cooperation Agreement between the Welsh Government and Plaid Cymru, both contain commitments to introduce levies.

Formal consultation on draft legislative proposals for a visitor levy will launch in the autumn, providing a platform for a range of views to be considered.

Rebecca Evans, Minister for Finance and Local Government, said:

“Visitor levies are a common feature in tourist destinations internationally. They are an opportunity for visitors to make an investment in local infrastructure and services, which in turn make tourism a success. Without such a levy, local communities face an undue burden to fund local services and provisions on which tourists rely. From keeping the beaches and pavements clean, through to maintaining local parks, toilets and footpaths – the critical infrastructure that supports tourism should be supported by all those that rely on it.

“The introduction and subsequent use of such a levy would enable destinations in Wales to be enjoyed for generations to come and encourage a more sustainable approach to tourism.

“The levy would be proportionate by design, and powers to raise the levy would be discretionary for local authorities. This would enable decisions to be taken locally, according to the needs of our communities. The levy will apply to those paying to stay overnight within a local authority area. Opportunities for wider contributions on the cost impact of other types of visitor activities on local infrastructure will be offered as part of the consultation on the levy.”

Designated Member Cefin Campbell MS said:

“Giving local people the power to introduce a tourism levy will make a difference to communities across the country, many of which attract a significant number of tourists. It will give local people and their representatives more power and resources to invest and deliver in their areas.

“Councils will be able to ask tourists to contribute in a small way to the areas they are visiting and the local services they use.

“This measure will help support a sustainable rather than an extractive tourism sector, which will help bring the greatest benefit to communities and the local economy.

“Such levies – often known as tourism taxes – are commonplace in countries across Europe and beyond. This is about mutual respect between our communities and the visitors they welcome. It is a new policy which is the fruit of a Welsh co-operative spirit.”

WELSH GOVERNMENT BANS SMOKING IN SELF-CATERING

Smoking Ban in holiday cottages from 1 March 2022.

New smoking laws are being introduced in Wales which affects the tourism industry. From 1 March 2022, all hotels, guesthouses, inns, hostels and members' clubs must be smoke-free and will no longer be able to offer designated smoking bedrooms.

All self-contained holiday and temporary accommodation, such as cottages, caravans, chalets and other short term lettings accommodation will also be no smoking. Owners should therefore have prepared for conversion any of their smoking accommodation/ designated smoking bedrooms to smoke-free ready for 1 March 2022 - after this date it will be against the law to smoke in these areas and a fine could be issued.

Further information on how these changes affects the tourism industry can be found here:

<https://bit.ly/3BdNdB8>

WALES WORKING GROUP AND INFORMATION ON SELF-CATERING CONSULTATIONS IN WALES

The Wales Working Group met on the 8th of February to coordinate responses to these Consultations. Please continue to send your thoughts and comments in so that they can be part of the considerations. Thanks. Send to chair@pascuk.co.uk

There are three consultations underway that affect Members in Wales. They are listed below. We have established a working group with the Wales Tourism Alliance to try and coordinate a single unified response to each of these. The danger is having separate groups giving conflicting feedback to these consultations, which can mean that Govt ignores them all.

The notes on these will be published so that Members can see the position that we are taking, and hopefully can also feed into the Consultations on similar lines.

Please provide your comments and inputs on these Consultations to us so that we can include them in our discussions. Please send to chair@pascuk.co.uk

A reminder of the Consultations:

1st Consultation: 'Local Taxes for second homes and self-catering accommodation'.

<https://gov.wales/local-taxes-second-homes-and-self-catering-accommodation>

Whilst this Consultation is technically closed (on 17 November 2021), the review is still ongoing and that is being fed into.

2nd Consultation: Planning legislation and policy for second homes and short-term holiday lets:

This is the most urgent one as the Consultation period ends on 22 February. This is the one that was discussed in detail at the Working group this week, note and update are above.

3rd Consultation: Local variation to land transaction tax rates for second homes, short term holiday lets and potentially other residential properties - closes 28th March 2022

We have a little more time on this one.

<https://gov.wales/second-homes-local-variation-to-land-transaction-tax-rates-html>

This is what was called Stamp duty up to April 2018. £180K – £250k – 3.5%; 5% above £250k. Property above £40k attracts Land Transaction Tax (LTT) – Welsh Revenue Authority. The proposal is to delegate Powers to Local Authorities (LA) to vary LTT in LA or specific ward areas.

SELF-CATERING AGENCY MEMBERS ZOOM MEETING

During next week PASC UK Members will be invited via email to a private zoom meeting to discuss the various Government interventions in the sector. (The invitation will now be sent out next week).

These Include Statutory Registration, the new rules on how many days let owners must meet to comply with the forthcoming Business Rates Rules in England, and how that might be checked and implemented as well as the threats of additional taxes and regulation in Wales.

If you are a self-catering agent, and do not want to miss this, please send an email to chair@pascuk.co.uk

HOW TO TRY AND LOCATE LOCAL BUSINESS SUPPORT GRANTS IN ENGLAND

Various sources are available in different parts of England, and many grant schemes may well be re-titled under the Westminster Governments 'Levelling Up Agenda'. Tourism is much higher on the agenda post pandemic.

England is divided up in many sub regions, these are covered by Local Enterprise Partnerships or LEP's. Whilst the whole structure of LEP's is under review, many of them do have funds available to support businesses in one way or another. Many of them recognise Tourism in ways that they never did pre Covid. County and District Councils manage millions of pounds of grant money annually.

Go and look at your Local LEP website first. They are really good source to look for information on Grants. Most of them have on their websites a grants section, or a business support section and in many cases a Growth Hub. This is where you might find access to some grants.

Secondly, Councils often have funds too, the best thing is to once again search your Council or District Council website.

Here is an example of one in Somerset.

Somerset Visitor Economy Support Programme – Grant Scheme

Somerset County Council are seeking applications for their new grant scheme from businesses operating within the Somerset Visitor Economy.

Grants of between £25,000 and £40,000 are available for Somerset SME businesses (Small and Medium Size Businesses of up to 250 employees), partnership of businesses, or community organisations wishing to introduce and implement a project that delivers genuinely new provision for visitors to the County. Projects will need to be completed in 2022, but also demonstrate sustainable impact into future years.

Grants will be match funded, with the applicant expected to meet 35% of the project costs and the grant meeting the remaining 65% of the project costs. This call for applications will close on Monday 14 March 2022. [Find out more and apply online.](#)

Here is one in East Devon, called The Innovation and Resilience Fund
<https://bit.ly/3GBG8MO>

As you can see, they all have different names, all will operate slightly differently. Grant applications can be onerous, but at the same time a grant is a grant. Successful tourism business applicants in Somerset can apply for up to £40,000 and in East Devon up to £50,000. These are substantial sums of money.

If you come across more of these, please share the information with us and we will publish in future newsletter. Thanks

BUSINESS SUPPORT FROM LOCAL ENTERPRISE PARTNERSHIPS

Carrying on with the theme of LEP's many offer support programmes for business as we all look to recover from the pandemic.

The support can take a variety of forms. Again, a search of the LEP website will reveal whether yours has any such support. These can vary from free online resources, case studies and best practice to actual courses. Most of these are free of charge to businesses

Here's an example sent in by a Member near Leeds: <https://bit.ly/34MraWb>

Here's an example from Devon and Somerset, which has £780,000 of funding, so a major programme.

Thrive: The Growth Hub Service for All

Introducing Thrive, the Growth Hub's new support programme for the self-employed and small to medium size enterprises (SMEs) in Devon, Plymouth, Somerset, and Torbay.

Thrive will offer a free diagnostic and training service, with up to 12 hours of tailor-made support that will enable businesses to improve and grow. Enrolled businesses will be able to access 1-2-1 support, webinars and specialist support around topics such as digital skills, finance, marketing, HR, business planning and more.

<https://bit.ly/34QxXhr>

GOVERNMENT URGED TO CUT VAT, SAVE £4.6BN AND LEVEL UP

Hospitality and tourism bodies state permanent VAT reduction benefits are 'undeniable', publishing a study that shows the cut will save the Government £4.6bn and create over quarter of a million jobs over the next decade.

The British Beer and Pub Association, UKHospitality, the Tourism Alliance and the Association of Leading Visitor Attractions published last Friday a study which highlights the massive benefits which will accrue to the Government over a decade if the current reduced level of VAT is retained.

The report, commissioned jointly by the four bodies, found that a permanent rate of 12.5% VAT will bring VAT on hospitality and attractions in line with the European average (at 20% it is nearly double), and set off a virtuous cycle of industry investment and growth, helping 'level up' UK regions. Headline results from the analysis of the impact of retaining VAT at 12.5%, rather than returning to 20%, for hospitality and tourism include:

- Creating 286,850 jobs over 10 years
- Generating £7.7bn of additional turnover over 10 years
- Delivering £4.6 billion in net present value of fiscal gains to the HM Treasury over 10 years -
- Returning a positive gain on the Government's investment in less than 5 years.

The industry bodies say the report constitutes a compelling case for making the reduced rate permanent and demonstrates the benefits such a long-term investment in UK PLC can bring.

This permanent cut in VAT is being asked for at a time when the hospitality and tourism sector is currently experiencing record levels of debt and are facing increased costs across the board from energy through to raw materials, as well as supply chain difficulties and rising inflation.

The Full report is here: <https://bit.ly/3olt6pY>

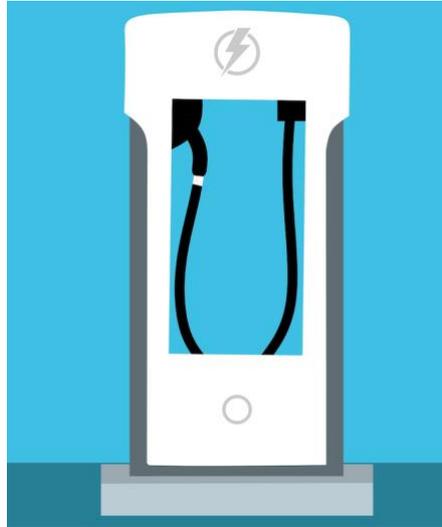

POSSIBILITY OF EV CHARGING STATION GRANTS

(We hope to have more information on this next week)

As part of the work going into the updated EV Charging Paper, we should first thank Members for the huge amount of information that you have sent in. We need to sort and collate all of this and hope to have it available as an updated report in a couple of weeks.

We are in conversations with OLEV about the details of possible grants coming in that may be applicable for businesses such as self-catering operations. The timescale is post July, and it also looks like that all installations from July on will need to be smart chargers, so not just a free to use. As with all Grants, the devil is in the detail and in many cases the cost of supply and installation rises when Grants are available.

We should have more information for next week's newsletter.

GOVERNMENT RESPONSE ON BROADBAND

The Government has published its response on the consultation on the provision of broadband to hard-to-reach places – many of which are tourism destinations. The good news is that the response recognises that the businesses that responded to the call for evidence were predominantly in the agriculture and tourism industries and that tourism can help rural economies.

Full report here: <https://bit.ly/3ul3A8a>

INSURANCE UPDATE WITH MORE OPTIONS

(ALWAYS A WORK IN PROGRESS)

We will publish a review of the revised Cottagesure Policy shortly

We continue to receive a huge number of calls/emails about self-catering insurance policies. Most report huge rises in pricing and some saying cover no longer offered. We have updated the Lycett's notes below having had a conversation with them and their bespoke offer looks good.

The good news is that the Cottagesure Policy will be going live again, initially for renewals only from Friday 11 February. There are some changes in the cover, now underwritten by HCC International Insurance.

There are some changes, there are two subset policies; Single Let and Cottage Complex. There are changes to cover as well, no equipment breakdown cover is provided, nor commercial legal expenses, and not unexpectedly no communicable disease cover.

We will do a comparison of cover changes on this important policy which around half of PASC UK Members had during the pandemic.

Below is a list of primary offers in the sector, with updates as we have them. We have also added a list of players in the market that we don't have direct experience of, to try and give you more options as you shop around for cover.

Every indication is that self-catering insurance premiums are set to rise substantially this year, so worth shopping around.

If you have any good experiences or new providers let us know, and if you have experienced the opposite let us know. Please email chair@pascuk.co.uk and we will update the list below accordingly. Thanks.

Reminder....The first point that we would make is that you choose a policy that is geared to letting short term lets on a professional basis, and not a policy which is no more than a 'tweaked' home insurance policy which so many are. This makes them look excellent value for money, but if the cover is poor if they don't pay out, they are a waste of time.

The second point is to ensure that you have the cover that you are looking for. You won't find the words 'covered for Covid' in these policies going forwards in our view.

Just a few examples of issues here to double check with any provider quoting you, these have come up repeatedly as a reason for no actual cover. If you have things like games rooms, animal petting, anything that the insurer may find unusual, it really is best to ask up front. Could save a huge amount of time.

- Some say no single person use of hot tubs or swimming pool (How on earth could we police that?)
- Some say no Thatched, or adjoining properties
- Some say no streams or ponds on property

So please check for exclusions. No point in paying for a policy that would never pay out.

The main players are as follows. Please let us know if you have a dedicated Self-Catering policy from any others and how they fared during the pandemic, and we'll update this section.

Gallagher's Cottagesure

This is one of the most established policies on the market. Good reputation over a long period. RSA initially refused Covid cover. They lost at the Supreme Court in January 2021, so most claims settled. RSA one of the first to agree not to deduct grants from pay-outs.

UPDATE... See note above, Cottagesure Policy back for renewals from 11 Feb. Review of new cover to follow.

<https://cottagesure.co.uk>

Lycett's

Lycett's Insurance Brokers (and Financial Services) are an insurance broker with 16 offices around the country, mostly in rural locations, and have a wealth of experience in placing leisure risks including self-catering holiday properties, often with their own leisure facilities. Each individual risk is underwritten on its merits with no broad-brush approach to a sector or type of risk.

Probably more well known in the Rural, Agricultural and Equine arenas but have a growing Commercial team also and retain ownership of any claims via their in-house claims team at their Head Office in Newcastle.

Lastly, Lycett's are ultimately owned by a charity (Allchurches Trust) so any profits they make are distributed to charity & community groups in the UK & Ireland.

Contact: Lee Musgrove Lee.Musgrove@Lycetts.co.uk

<https://www.lycetts.co.uk/insurance-services/rural/estate/holiday-cottages/>

Boshers

They do not appear to have paid out at all for Covid related claims, (unless anyone knows different) but have been established for 30 years and previously had a decent reputation.
<https://www.boshers.co.uk/holiday-home-insurance/>

NFU Mutual Update

NFU Mutual normally have a really good reputation amongst policyholders. They have though had a challenging Covid. **(See note repeated below about joint action against NFU for failure to pay out under Business Interruption)**. Their cheaper Home and Lifestyle policy paid out for Covid, but the more expensive policy did not (unless anyone knows differently).

They were the last major insurer to keep deducting Grants from pay-outs although thankfully they reversed this policy. Their Cancellation Advance Bookings add-on is a really good add on and we are trying to get others to offer similar.

Check Pool and Hot tub cover particularly with these policies as we have heard cases of them not allowing solo use.
<https://www.nfumutual.co.uk/insurance/home-insurance/>

Schofields

Did very well in the pandemic, paid out for Covid (unless you know different) and their underwriters were the first to say that they would not deduct Grants from pay-outs.
<https://www.schofields.ltd.uk>

These four I have heard of but have not listed before as I don't have any Member recommendations on them at this time.

Towergate Insurance

These also have a Glamping policy....

<https://www.towergateinsurance.co.uk/home-and-property/holiday-home-insurance>

J L Morris

Various policies on offer, but not clear if do or don't do complexes.

<https://www.jlmorris.co.uk/uk-holiday-home-insurance/>

Magenta Insurance

Looks like suitable for single cottages rather than complexes and only up to a value of 1.5 million property value.

<https://www.magentainsurance.co.uk/>

If you have any comments, feedback or think others should be on the list and why? Please email chair@pascuk.co.uk

NEW REVISED CLEANING PROTOCOLS V5

All three Country specific versions are available under the Covid-19 Tab on the new website. England, Scotland and Wales are covered.

Between the old website and the new website over 12,000 copies of the updated version have already been downloaded, taking the total to more than 135,000.

It is a positive review with sensible changes and written in any easy-to-understand way. We strongly recommend that they are read in their entirety, so that the whole context and the necessity to write an updated risk assessment is fully understood.

We are providing a single document for **Self-Catering Covid Cleaning Protocols V5** in each of England, Scotland and Wales.

This includes

- The Cleaning Protocols
- The Risk Assessment
- Cleaning checklist
- FAQ's

As always with the Cleaning Protocols, these are free to all. Earlier versions have been downloaded from the PASC UK website over 120,000 times and have done much to convince Government of the sectors commitment to Covid security.

Some key changes:

- Owners should follow current Government guidance on issues such as physical distancing and face coverings
- Properties that have been cleaned and disinfected in line with the protocols should be available for immediate occupation, and there is no requirement for leaving properties fallow for 72 hours
- Individual operators should decide on whether guests should strip the beds / laundry themselves. If operators/cleaners remove them (following protocols on good handling of linen, not shaking, PPE if required), then it could be argued that this may actually be more "controllable"
- A common-sense approach should be taken to the washing of crockery/cutlery, based on what cleaners find when assessing property at changeover
- PHS does not recommend Steam/UV-C light/ULV fogging between guests as standard practice
- And much more....

The Protocols can be found on www.pascuk.co.uk

MEMBER BENEFITS SUMMARISED

To carry out the lobbying work that we do on behalf of the Sector we need funding. 90% plus of this funding comes from Membership Subscriptions.

Members will get.

- Access to Telephone Support
- Prompt email support
- Access to Members Benefits and Discounts. (Buying Group Membership details below)
- Members only Webinars, (Including ask the Chair sessions)
- Book Surgery Appointments with the Chair
- Specific Discounts on key products
- PASC UK Guides to reducing Business Rates
- Hard Copy of the Visit England Pink Book
- Special Interest Papers (EV Charging, Third Party Services at Holiday Lets, Privacy and Cookie Policies etc)

What will be available to non-members?

- The PASC UK Covid newsletters
- Email support when available. (Members support comes first).
- Free Webinars
- Cleaning protocols
- Some General interest Papers, (Cancellation Policies, what to do if Guests gets Covid etc)

We are currently making major investments in supporting you better and all this cost's money, these include.

- A new Website
- The largest ever National Report on Self-Catering in the UK, broken down by country
- Sponsorship of the Visit England Pink book, to help promote the safe and legal aspects of our sector
- Membership fees to the Tourism Alliance, UK Hospitality and Wales Tourism Alliance
- Surveys and reports to use data-based arguments to win support for the sector

If you have not yet joined PASC UK, please consider joining NOW. Details below the Buying Club information. <https://bit.ly/3ptd4RU> Thanks.

BUYING CLUB MEMBER BENEFIT FOR PAID PASC UK MEMBERS

We are really pleased to announce a partnership with Purchasing for Business.

More details on the new PASC UK website here: <https://bit.ly/3ptd4RU>

This is a Buying Club, it's free to join if you are a paid up PASC UK Member. There will be no additional fee for Members to join the Club.

SUPPORT LOBBYING BY JOINING PASC UK

There is a huge amount of work and lobbying to do to help support you all in the self-catering sector. We don't ask very often, however, if we are to fight on so many fronts, we simply need more funds. There are thousands of you that have had the benefit of this newsletter and the lobbying done on behalf of the sector.

We are now asking that as many of you as possible join PASC UK. The fight is on so many fronts, and we get much better results when we engage proper legal advice and proper PR firms to assist with campaigns. Memberships to other organisations that provide common lobbying, information feeds and support also cost many thousands of pounds a year.

Membership fees are as follows: All per annum.

- Single cottage £70
- 2 – 4 Units £125
- 5 – 10 Units £200
- 11 + Units £300

For companies like cleaning firms, or industry support companies, Trade Membership is £200, and you will get a listing in the Trade Directory on the new website.

Members get telephone support and priority email support.

You can join here, simple form, takes 2 mins, and you'll get an invoice, payable by BACS or Credit Card.

Just click on this link to go to the joining page: <https://www.pascuk.co.uk/join-us/>

Thank you

RECORDINGS OF PASC UK WEBINARS

These can now all be found on the new website at: <https://www.pascuk.co.uk/webinars/>

HOW TO REDUCE YOUR BUSINESS RATES BILL

Many of you have been waiting for me to finish updating the Business Rates paper that enables you to make a self 'check' on your Business Rates Bill.

Please bear in mind:

- The Business Rates Papers are only available to paid up Members.
- The reduced rates negotiated by PASC UK only apply to England and Wales
- The reduced rates negotiated by PASC UK for self-catering are only currently available to Businesses that have 3+ units on one hereditament.
- It will take a while to work through the backlog as each Members needs to have a run through, before applying their "Check".
- We will be in touch directly to arrange these short sessions.

Our apologies that this has taken longer than anticipated.

PASC UK MEMBERS LOGO

Please only display if you are a fully paid-up Member. You can get a copy by sending an email to admin@pascuk.co.uk Thanks.

MEMBER RENEWALS

Huge favour to ask of regulars, when you get your renewal through, please pay it. The logistics of chasing waste hugely valuable time that could be spent doing far more useful things for all. If you don't want to renew, all you have to do is say so.

ABOUT PASC UK

Full details of all the activities that PASC UK undertakes can be found on the new website, under the About Tab on the homepage. www.pascuk.co.uk

DISCLAIMER

We are in completely uncharted territory here, and any suggestions that we make are merely that and you should carefully consider your own business policies, and if necessary, consult with your Professional Advisors. PASC is your lobbying Association, not a legal service. In addition, please be very wary of some of the advice given on internet communities, blogs and social media. There appear to be thousands of experts out there where my understanding is that there are very few.

To that end, any information you get from any source you must double check. I will always try and put the actual link to the information in the newsletters so that you can read and assess yourselves. These are unprecedented times, please take exceptional care.
