COMMENTARY

This week we have published a blank Fire Risk Assessment with note, for properties that come under the 'small' guide, plus Fire Notices for properties in two versions, see below in the Fire Section. More coming soon to support owners with the challenges presented by the updated fire rules. Previous webinars about how to comply are available on the website, as are an increasing number of support papers.

This week we are also publishing the summary responses made by various organisations to the two English Government Consultations affecting our sector, The Planning Consultation and the Statutory Registration Consultation. Detail below.

Both of these will be helpful in forming our arguments and positioning of the summer/autumn public affairs programme to try and ensure that the Planning Consultation does at little harm to the sector as possible, and that the Statutory Registration is robust enough to actually provide is with that 'level playing field'. We should be in a position to share with you our plans for the advocacy and lobbying on these, and what part you too can play, as early as next week.

Many of you are reporting much poorer bookings, and whilst the information varies from area to area, and across types of property, the headline average figure from SuperControl shows an average drop of around 8% in occupancy year to date. This is of course an average, but it is based on real-time bookings, that took place in Q1 and Q3 2023. So, a good measure to compare your performance to.

We are getting much closer to having access to more data, hopefully regionalised shortly so that comparison will be made easier for you.

What also coming clear is that booking lead times are reducing rapidly, and that many of you are reporting getting really late bookings, and also more frequent requests for short breaks even in the summer holidays, where many may prefer linger stays. Flexibility is a really important tool in getting these last-minute bookings.

Any questions please let us know. Best regards
Alistair

MUCH MORE ON FILLING IN FORM VO6048 25 JULY

Further to update last week, there are still reports of owners getting the wrong form. Please follow instructions below and download the right form. If in England a key clue is that it says 70 days, and in Wales 182.

There have been no further changes this week to Form VO6048 online. The up-to-date guidance on filling in VO6048 from PASC UK is here: <https://www.pascuk.co.uk/reports/>

They have however changed the URL's, so we are publishing these at the bottom of the update note so that you can find the one relevant to you.

We had a very productive meeting with several members of staff of the Valuation Office Agency (VOA) yesterday and shared our concerns at the way that VO 6048 has been issued this year, in both England and Wales.

The VOA has now improved the findability of the VOA6048 forms online. Please see list at bottom of this note:

The VOA has confirmed that incorrect forms were sent out to many people in the period 9-22 June inclusive - Wales when it should have been England, for example. VOA now states that you need to download the correct form online.

If you have not received a form this spring/summer, do not worry too much. VOA has a cycle for sending out forms. For example, in Wales the cycle is 50% of owners each year.

In England all properties on Business Rates should expect to receive a copy through the post by mid-September latest. Always check that the version you are sent is the same as the latest one on the Gov.uk website, use links below.

You are not expected to proactively go online and download a form. You can wait until you get a form or a letter asking you to download a form through the post, and that's when 56 days starts ticking. If they don't hear back from you, they will send reminders by post, and in extreme circumstances by phone. It's worth responding on time, otherwise the worst thing that can happen is that you just get switched to Council Tax. This should only happen as a last resort and is unlikely to happen within 100 days.

However, if your forms are normally sent to the letting property rather than to your home, you should check if anything has been received there. It would be sensible to make sure that the VOA has your owner address on file - they say they will send the forms to this owner address if they have it.

No further changes to forms are expected this year.

We reiterate that you must return these forms within 56 days - or you may find that your Business Rates registration is cancelled, and you will have to pay Council Tax, or that you will start paying increasing fines.

We recommend that you download a new, updated, clean copies here. There are six forms to choose from:

In England, one if you are on Council Tax and want to register for Business Rates, and one if you are already on Business Rates.

In Wales, the same as above, but Welsh Language versions available too.

MAKE SURE YOU ARE DOWNLOADING THE CORRECT VERSION.

Registering your Property for Business Rates. Possibly for the first time or you have hit the thresholds required and want to go back onto business Rates.

If you are looking to **register your property** for Business Rates **in England** (To do that you will need to have achieved 70 days let in all the units on the related property, period 1 April 2022-31 March 2023)

download this form.

If you are looking to **register your property** for Business Rates **in Wales** (To do that you will need to have achieved 182 days as an average across all the units on the related property, period 1 April 2022-31 March 2023) download this form.

SUMMARY RESPONSES TO ENGLISH CONSULTATIONS REGARDING SELF-CATERING

We have posted up two summary responses to the Consultations launched by Westminster that affect the sector. The Consultation into Statutory Registration and the Consultation that is looking at changing planning law around holiday lets.

We have summarised both the responses from AirBnB and STAA, who represent likes of Sykes, Booking.com and AirbnB with the PASC UK responses as well as the AirBnB response.

The key areas for us to look at on the Registration response are where exemptions from Registration are requested, we want an all have to register, even if let for one night. AirBnB will be wanting to protect their 'room to rent' market as far as possible. We say that market has had a tax break since 1992 where they can currently earn up to £7500 tax free from a room should invest some of that tax free money in having the same level of fire safety that we do.

We also think that suggestions of applying once only, low/no fees and not uploading any paperwork to show compliance are just ways to weaken and undermine the scheme. Lots of work to do.

On the Planning, there is a more universal fear that this approach from HMG will do more harm than good and we will be pressing HMG to look at the evidence provided by a robust registration scheme before rushing into changes to planning.

More on the above when we launch our summer lobbying campaign.

You can access the Summary Responses here: <https://www.pascuk.co.uk/reports/>
